Qualman signed the signature card. Hyke is to send it to Bank of America for their records.

Small Grant Applications

Motion by Terry Deaton, 2nd by Taylor to approve Sloan Nelson's Small Business Grant in the amount of \$4900.02.

After some discussion, the decision was made for Gare to return Scott Nelson's Grant application back to him for more clarification. Is the grant for a new sign and what was wrong with the old sign.

Some discussion to have the grants to be changed so that the people asking for a grant has to receive a bid from a local company; if the need can be provided by a local business. Check and see if the Grants are not used in one year, the funds expire and the business has to resubmit a new application. There may be problems with the carry over the way the budget is designed. The Tyack benches were brought up. Were they ever funded? Decided that this issue should be brought up in a work shop.

Appointment of New Attorney

Motion by Grice, 2nd by Taylor, that the Council accept the committee's recommendation for Karen Williams as REDCO Attorney. All information was addressed at the Executive Meeting earlier. Passed unanimously.

Motion by Taylor, 2nd by Grice to have Gare draft a letter to the county that REDCO has no objections to the rezone of his property.

The regular REDCO council meeting time was changed in December to 6:00 p.m.. The time needs to be changed on the Web site.

Discuss Potential Use of REDCO Funds for City Water Treatment Plan

Perhaps the funds set aside for the water treatment plant can go to the WWT plant and the Fire District could help out with the water treatment plant.

1. Staff Reports

Deaton:

Public restrooms are needed for through highway traffic. Perhaps we can change the bathrooms at the old marina into state public restrooms; then the state could keep them open 24-7 and maintain them.
